Skills

BACK-END DEVELOPMENT | Java • JavaScript • Express • Node.js • Electron • Python • TypeScript

FRONT END DEVELOPMENT | React.JS • Redux • Next.JS • Tailwind • Bootstrap • HTML • CSS • EJS • React-Native

DATABASE & MISCELANEOUS | MongoDB (Compass, shell & Atlas) • MySQL • Docker • Mongoose • GIT • NLP • Machine Learning • MS Office • Window

SOFT SKILLS | Problem Solving • Time Management • Adaptability • Team Collaboration & Communication

Work Experience

One Community Global, SAN GABRIEL, CA | Software Developer | Jan 2025 – Present

- Developed new features, reviewed pull requests, and fixed bugs for the Highest Good Network project and time-tracking software using **React.js, MongoDB, Express, and Node.js**.
- Built a **listing overview** feature to enhance user experience and streamline data presentation.
- Designed and implemented an **interactive map**, integrating geolocation services for better navigation and user engagement.
- Developed the **backend for the Wishlist feature**, ensuring seamless data handling and user interaction.
- Diagnosed and resolved **critical issues and hotfix bugs**, improving system stability and performance.
- Conducting **thorough PR reviews**, ensuring high code quality, maintainability, and adherence to best practices.

NYIT, Learning Center, Old Westbury, NY | Peer Tutor | Nov 2023 – May 2024

- Led **individual and small group tutoring sessions**, adapting teaching methods to different learning styles to enhance students' understanding of course material.
- Developed and organized **customized lesson plans, exercises, and study materials** to reinforce key concepts and improve retention.
- Provided **guidance and mentorship**, fostering a positive and encouraging learning environment to boost students' confidence and academic performance.
- Demonstrated **strong leadership skills** by effectively managing sessions, setting clear learning objectives, and tracking student progress.
- Utilized **excellent communication skills** to explain complex concepts in a clear, engaging, and accessible manner.
- Showcased **organizational abilities** by planning and scheduling sessions efficiently, ensuring optimal time management for both tutor and students.
- Promoted **critical thinking and problem-solving skills**, helping students develop independent learning strategies.

HONORS & AWARDS

- T.K.Steele Scholarship | 2021-24
- Presidential Honor List | 2021-24
- National Silver Medalist (Shooting) | 2018-19

COURSEWORK

- Data Structures and Algorithms
- Full Stack Web Development
- Introduction to Software Engineering
- Big Data Analytics
- Information Retrieval
- Linear Algebra
- Computational Statistics
- Data Mining

Education

NEW YORK INSTITUTE OF TECHNOLOGY - Old Westbury, New York

B.S., computer science | Jan 2021-dec 2024 | **GPA: 3.89** | **CS GPA: 3.90**

Academic Projects

NYIT, Old Westbury, New York
Library Deliver system | spring 2024 – Fall 2024

- Integrating **Node.js, Next.js, MongoDB, and others**, with features like personalized recommendations and seamless book delivery.

Hotel Feedback Portal | Fall 2023

- Developed a **Node.JS**-based Hotel Feedback Portal with **Express.js, EJS, MongoDB, and others**, featuring user authentication, machine learning-powered complaint categorization, and PDF report generation for managers.

Messenger | Fall 2023

- Designed a secure and feature-rich chat application in **Java**, utilizing **MySQL** for robust user authentication, **socket programming** for real-time communication, and **Java Swing** for an intuitive user interface.

Shadow Bank | Fall 2023

- Developed a **Java**-based banking system, "Shadow Bank," featuring robust database interactions with **MySQL, Java**, secure user authentication, and management of customer accounts, employee profiles, and approval workflows.

Reddit Sentimental Analysis | Spring 2024

- Conducted sentiment analysis on Reddit data using **NLP**, techniques to gauge public opinion dynamics. Applied **TextBlob** and **VADER** for sentiment classification, while implementing extensive data preprocessing.
